MIC

The control panel features a DBX logo on the left and a '286A Mic Preamp/Processor' logo on the right. It is divided into four sections: **MIC PREAMP** (Gain, Level, Phantom Power, Highpass, Process Bypass), **COMPRESSOR** (Drive, Density, Gain Reduction), **DE-ESSER** (Frequency, Threshold), **ENHANCER** (LF Detail, HF Detail), and **EXPANDER/GATE** (Threshold, Ratio, Output Gain). Each section contains various knobs, switches, and meters.
